Grief Support--- Lifetime Comprehensive Bereavement Services are offered to family members as well as community members dealing with loss.

Volunteers – Trained professionals fills a very special role in hospice care. Volunteers may provide companionship, respite, emotional support and offer in many different ways.

About Us

Solace Palliative & Hospice Care is a leading palliative care provider in the DFW metroplex. We are locally owned and operated by medical professionals. Our many years in palliative care have given us the skills and expertise to provide quality nursing care, consulting, and bereavement services. We firmly believe that our involvement in the daily operations of this program keeps us aware of the latest in palliative care.

Solace Palliative & Hospice Care is defined by the needs of our patients and families we serve. Each and every patient and families we've served has taught us something about compassionate care. This commitment to learn still drives us today.

Our Mission

Solace Palliative & Hospice Care Inc. enhances the quality and dignity of life for terminally ill persons and their families. We at Solace understand that a terminal illness affects not only the patient, but also everyone around that patient. Dealing with the care of the patient and facing the future can be overwhelming at times. Our staff recognizes the stress you are experiencing, and we will walk this path with you, not only now, but also after the death. From the moment your loved one becomes a hospice patient, we will be available to help in any manner we can.

Solace Palliative & Hospice Care provides service without regard to race, religion, age, gender, sexual orientation, disability (mental or physical), communicable disease or place of national origin

What is Hospice Care?

Hospice care is a specialized care designed to provide support to you and your loved ones during an advanced illness. **Hospice** care focuses on comfort and quality of life, rather than cure. The goal of **hospice** care is to enable you to have an alert, pain-free life ... to live each day as fully as possible

What is Palliative Care?

Palliative care is a multidisciplinary approach to specialized medical **care** for people with serious illnesses. It focuses on providing patients with relief from the symptoms, pain, physical stress, and mental stress of a serious illness—whatever the diagnosis.

Who Qualifies for Hospice care?

Patients must meet two **qualifications for Hospice**: Two physicians, the attending physician and the **hospice** medical director, must certify the patient is terminally ill, with a six-month or less life expectancy if the disease takes its normal course Presence of one of these diseases is likely to contribute to a life expectancy of six months or less Examples may include:

Cancer	Diabetes Mellitus
Coma	Renal Failure
COPD	Pulmonary Disease
Stroke	Liver Disease
AIDS/HIV	Dementia
